## PROGRAMMING SKILLS

---

- **Languages:** Javascript, Typescript, HTML, CSS
- **Technologies:** ReactJs, **NextJs**, SolidJs, **TailwindCSS**, Git/GitHub, Strapi

## PROJECTS

---

- **Question and Answer Site:** Blog type website which manages it's content using a CMS in the backend. The site is built using **NextJS** and utilises **Incremental Static Regeneration (ISR)** to update the website on the fly and is deployed on a DigitalOcean Droplet Nginx Server.
  - Created design and layout of site.
  - Setup relations and collections in Strapi CMS.
  - Collaborated with client to finalise requirements.
  - Setup **GitHub Webhook** to automate deployment in Server.
  - Setup and deployed the project on a DigitalOcean Droplet running on **Ubuntu**, **Nginx** and PM2.
  - Traffic of around **2400** monthly users.
  - Technologies: **NextJs**, **TailwindCSS**, Strapi CMS, SendGrid, SSH.
- **Crypto World:** CryptoWorld is a cryptocurrency website where you can track and manage your crypto assets and update yourself with the latest news on Web3.
  - Collaborated with **three** other team members using **Agile Methodology**.
  - Implemented a news component that uses **GNews API** to update and populate the component based on the coin selected.
  - Implemented a search filter to the coin list.
  - Technologies: **ReactJS**, Javascript, CSS, **Ant Design**, Firebase, APIs
- **Snap Home Page:** Landing page created from a Figma Design from a FrontEnd Mentor Challenge
  - Technologies: Vanilla JS, CSS, HTML

## EXPERIENCE

---

- **Chingu Voyage** Remote  
*Web Developer* *March 2023 - April 2023*
  - Collaborated with a team of 4 members to design, develop and build a project using **Agile Methodology**.
  - Utilized **Git/GitHub** version control system and a Kanban board to manage project repository, review and merge Pull Requests from team members.
  - Conducted weekly sprint planning meetings to estimate and allocate tasks to team members.
  - Resolved more than **10 task** tickets assigned to me during the duration of the Project.
  - Created detailed **documentation** in the form of a **Readme** for the project's GitHub Repository.
- **Mizo Apologia** India  
*Web Developer* *August 2022 - Present*
  - Designed, developed and deployed the organisation's website.
  - Collaborated and planned with members of the organisation to finalize on features and concepts of the website.
  - Implemented a **Headless CMS** system for the website so that non-technical members may be able to manage content on the website.

## EDUCATION

---

- **Spicer Adventist University** Pune, India  
*Bachelor of Science in Computer Science; CGPA: 6.91* *2015 - 2018*
