PROGRAMMING SKILLS

- **Languages**: Javascript, **Typescript**, HTML, CSS

- **Technologies**: ReactJs, **NextJs**, SolidJs, **NodeJs, TailwindCSS**, MongoDB, PostgreSQL, Git/GitHub, Strapi

PROJECTS

- **Question and Answer Site:** Blog type website which manages it's content using a CMS in the backend. The site is built using **NextJS** and utilises **Incremental Static Regeneration (ISR)** to update the website on the fly and is deployed on a DigitalOcean Droplet Nginx Server.
  - Setup and deployed the project on a DigitalOcean Droplet running on **Ubuntu, Nginx** and PM2.
  - Designed and Developed UI/UX resulting in a traffic of around **2400** monthly users.
  - **Technologies: NextJs**, **TailwindCSS**, Strapi CMS, SendGrid, SSH.

- **Node Blog:** A small blog built using **Node.js, Express** and the EJS view engine. This project was created as an exercise to learn Node.js and various backend technologies such as **JWT** for authentication and authorization.
  - Added CRUD functionality using **Mongoose and MongoDB**.
  - Implemented Authentication and Authorization of users using JWT.
  - **Technologies:** JavaScript, **Node.js, Express, MongoDB**, Mongoose, Json Web Tokens.

- **Crypto World:** CryptoWorld is a cryptocurrency website where you can track and manage your crypto assets and update yourself with the latest news on Web3.
  - Collaborated with **three** other team members using **Agile Methodology**.
  - Brainstormed with team members to pivot and iterate upon existing requirements.
  - **Technologies: ReactJS**, Javascript, CSS, **Ant Design**, APIs.

EXPERIENCE

- **Chingu Voyage**   Remote
  Web Developer   *March 2023 - April 2023*
  - Utilized **Git/GitHub** version control system and a Kanban board to manage project repository, review and merge Pull Requests from team members.
  - Resolved more than **10 task** tickets assigned to me during the duration of the Project.
  - Created detailed **documentation** in the form of a **Readme** for the project's GitHub Repository.

- **Mizo Apologia**   India
  Web Developer   *August 2022 - Present*
  - Designed, developed and deployed the organisation's website.
  - Continuous collaboration and planning with members of the organisation resulted in finalisation of requirements.
  - Implemented a **Headless CMS** system for the website so that non-technical members may be able to manage content on the website.

EDUCATION

- **Spicer Adventist University**   Pune, India
  Bachelor of Science in Computer Science; CGPA: 6.91   *2015 – 2018*
  - **Relevant Coursework:** Theoretical Computer Science, Object Oriented Software Engineering, Object Oriented Concept using C++, Programming in Java, RDBMS, Discrete Mathematics
